TREES AND PLANTS FOR SPRING PLANTING

We Guarantee Satisfactory results with our Trees and Plants.

HYBRID TEA ROSES

The following varieties which we have selected are vigorous growers. They have been tried and tested for fine texture of bloom, adaptability to different soils, their hardiness to withstand adverse weather conditions, and their ability to bloom new crops of flowers all Summer until a hard frost in the Fall. If you wish for a real nice rose garden, any listed will not disappoint you.

VARIETIES

- MRS. SAM McGREDY. Orange-salmon and golden tones.
- K. A. VICTORIA. Excellent as a cut flower for formal gatherings. Pure white and fragrant. Never has been surpassed in beauty.
- AMI QUINARD. Dark blackish-garnet buds opening dark velvety crimson, very fragrant.
- McGREDY'S SCARLET. It is one of our favorite brilliant scarlet roses.
- McGREDY'S YELLOW. Bright buttercup-yellow of perfect form.
- CONDESA DE SASTAGO. Blooms very large, fragrant, and double; deep coppery-pink within, golden yellow on outside of petals.
- ETOILE DE HOLLANDE. Dark red; free bloomer, very fragrant.
- SISTER THERESE. Free blooming and very dependable yellow with long pointed buds and full double blooms.
- RADIANCE. Large, brilliant rose-pink. Free bloomer and upright grower.
- DAME EDITH HELEN. One of the largest and most perfectly shaped of the Hybrid Teas; bright glowing pink, very fragrant.
- PRICES quoted are for two year best "Bloom Tested" plants, capable of blooming this Summer.
-\$1.25 each, 3 plants for \$3.45, 10 plants for \$9.95

CLIMBING ROSES

- PAUL'S SCARLET. Early old-fashioned, purest scarlet.
- BLAZE. The new everblooming red.
- Jumbo plants, two year "bloom tested" that will give you a beautiful display of scarlet roses this Summer.

NUT TREES

Dual-purpose plants, producing food as well as providing shade and beauty. The sorts and varieties that we have listed will produce an abundance of highly nutritious nuts.

FILBERTS

They not only bear heavily but possess many attractive ornamental qualities. The nuts are sweet and delicious. They thrive in any good garden soil suitable for fruit trees. Plant two varieties for pollination.

VARIETIES

- BARCELONA. A large round nut, fully self-husking. Rich in flavor and very prolific.
- DUCHILLY. A long nut of the finest quality. Very rich in flavor.
- DAVIANA. A long striped nut, rich in flavor and highest quality. A heavy producer.
- PRICE: 3-4 ft. trees.....\$3.00 each, \$25.00 per ten

NEW CHINESE CHESTNUT

Hardier than a peach, blight resistant. Trees are fast growers, and bear at an early age. Two needed for pollination.

PRICE: 2 to 3 foot Trees..... Trees for \$5.00

ENGLISH WALNUT

An exceedingly handsome tree for the lawn. It produces large crops of thin-shelled delicious nuts, which are always in demand at a good price.

Trees we offer are grown from nuts produced by hardy bearing trees growing in this vicinity.

PRICE for 2-3 ft. trees.....\$2.25 each, 3 for \$6.00

DWARF FRUIT TREES

There are pleasant surprises in store for the planter who sets out Dwarf Fruit Trees. They have the advantage of growing low, fruiting at an early age, and can be planted as close as ten feet apart each way, and bear almost unbelievable loads of the largest and handsomest fruit.

APPLE VARIETIES

- RED McINTOSH. Yellow and Red Delicious.
- NORTHERN SPY.

LILACS

They have been favorites since early history. Their survival proves how well they can take care of themselves and how much our climate suits them. They need good soil, free drainage, and at least six hours of sun daily.

Plants offered are three year French Hybrids, on their "own" roots which mean hardiness, long life, and bloom big, broad, prolific flowers every year. Every one we have for '51 is a superior variety, but none is in sufficient quantity to offer by name. So please order by color as follows: Bright Crimson, double; White, semi-double; White, double; Bright Mauve, double; Soft Violet, double.

Supply is limited, please order early.

PRICE.....\$2.50 each, 3 plants for \$6.75, 6 plants for \$12.50

Fruit Trees.

APPLES

The following varieties ripen in the order named and give a succession of apples good for eating or cooking through Summer to late Winter, or even to early Spring if stored in a cool and moist place.

Two varieties are needed for cross-pollination.

VARIETIES

- Yellow Transparent
- Early McIntosh
- R. I. Greening
- Red Delicious
- Baldwin
- Golden Delicious
- N. Spy

PRICES for two year 11/16" caliper, 5-6 foot trees. \$1.75 each, 3 trees for \$4.80. Ten trees for \$14.50.
(See prices on bearing-age apple trees.)

CHERRIES

Trees require but little attention, are thrifty, vigorous, and prolific bearers.

The following varieties have large, heart shaped, meaty and sweet fruit. Two different varieties of trees should be planted for cross-pollination.

Varieties

- BLACK TARTARIAN. Purplish black, very large, tender and fine flavored.
- WINDSOR. Fruit is very large, black and firm.
- NAPOLEON. Very large; pale yellow, spotted and shaded deep red; flesh firm and of fine flavor.

The following do not attain so large a size, and the fruit is sour. Also do not require a pollinator.

VARIETIES

- MONTMORENCY. Large, bright shining red fruit. Flesh solid, juicy, acid. "The pie cherry."
- ENGLISH MORELLO. Bears next in season to Montmorency. Fruit is wine color.

PRICES for two year 7/8 inch caliper and better, 5-6 feet tall. \$2.50 each, 3 for \$6.75, 10 for \$21.00

PEACHES

The varieties in the following list comprise what we believe to be the best in peaches. They furnish a succession for about two months commencing the early part of August. The trees are all shipped with one-year tops and two year roots.

VARIETIES

- GOLDEN JUBILEE. Large early. The skin is yellow blushed with red; flesh yellow, juicy, medium firm, tender, sweet. Freestone.
- RED HAVEN. Red against a yellow background. Freestone.
- HALE HAVEN. Large yellow, freestone. Handsome and of good quality.
- ELBERTA. Freestone, yellow, large and juicy. Old variety, but still a leader.

PRICES: 5 to 6' trees, caliper 7/8" and better. Big trees. \$2.25 each; 3 trees for \$6.75; 10 trees for \$18.50

PEARS

Excellent fruit for eating out of hand or for canning purposes. It is indispensable in the home-garden. Pears require cross-pollination, therefore, plant at least two trees. However, Bartlett and Seckel do not pollinate each other, therefore plant a third variety with them.

VARIETIES

- BARTLETT. Large, waxen yellow with red blush; buttery, very juicy and high-flavored.
- BUERRE BOSC. Fruit large, pyriform, with flesh white, melting, very buttery. Of a rich delicious flavor. Keeps until Christmas.
- SECKEL. Small, but handsome and delicious; yellow russet with a red cheek. Flesh very juicy and melting.
- SHELDON. Large, roundish, greenish-russet. Flesh juicy, melting and sweet, and vinous. Keeps well.

PRICES 2 yr., 11/16" cal., 5-6' \$1.95 each, 3 for \$5.25, 10 for \$15.00

PLUMS

Beautiful dessert fruits of rich and luscious flavor; equally fine for cooking and for canning.

Plums produce better when two different varieties are planted.

VARIETIES

- BRADSHAW. Very large; dark violet-red; flesh yellowish, juicy, pleasantly subacid. Tree vigorous and productive.
- BURBANK. Large, nearly globular; clear cherry-red with a thin lilac bloom. Flesh deep yellow, sweet, meaty and quite firm.
- LOMBARD. Medium size; violet red. Flesh yellow, juicy, pleasant. Tree hardy and very prolific.
- YELLOW EGG. Large, oval; golden yellow, slightly clouded; flesh deep yellow, rich sugary, melting.

PRUNES

STANLEY. Perhaps the best of the Prune type. Fruit is large, dark blue, freestone, ripening in mid-season. Flesh is greenish yellow, fine flavored.

FELLEMBERG. Long oval fruit with a thick bloom. Flesh is sweet, pleasant and firm. A good commercial variety.

PRICE: 2 yr. 11/16" cal., 5-6' trees. \$1.95 each, 3 for \$5.25, 10 for \$15.00

QUINCE

The quince is highly valued for preserves, marmalades, jellies, and for flavoring purposes, and is worthy of much more extensive planting.

VARIETY

ORANGE. Reliable and extensively planted. Large; brilliant golden yellow. Flesh tender, and flavor good.
PRICE for 2 yr. 4/5' trees. \$2.50 ea., 3 for \$6.75

BEARING AGE FRUIT TREES

VARIETIES

Seldom are we able to offer these extra large and extra old trees. 5 and 6 years old, grading 1 1/2" caliper and better. These trees will give you delicious tree-ripened fruit without years of waiting. They are economical too, for the very first bushel practically pays for the tree.

APPLE VARIETIES

McIntosh, Red Delicious, R. I. Greening, N. Spy, Baldwin.

PEAR VARIETIES

Bartlett, Bosc., Seckel.

PRICES OF BEARING-AGE TREES

\$3.75 each, 3 trees for \$10.50, 10 trees for \$30.00

ROOM FOR BERRIES

Even a small space will insure fruit for menus in summertime. By planting a selection of berries this spring you can have something to pick throughout the outdoor months, and what is enjoyed more than berries fresh from your garden.

BLUEBERRIES
